To Whom It May Concern:

I sincerely oppose your consideration of NAB's petition 04-160!

My wife and I tour on motorcycles and the satellite radio has been one of the best additions to our touring comfort. We do not have to constantly fiddle with the radio to keep a station (extremely difficult and dangerous on a motorcycle). The traffic and weather availability around large cities is especially nice and a good safety feature. Can you imagine the problem of trying to find a station on regular F.M. when driving in traffic on a bike in heavy traffic in a large city.

We are both in our fifties and we really enjoy our sport of touring on motorcycles and is something we can do together. The XM has made our sport more enjoyable and safe.

Thank you for your consideration of our safety and convenience.

Sincerely:

Horace and Sandra De-Shazo
